AAA Brings Cash to Farmers

NEAR MILLION DOLLARS HELP FARMERS HERE

County Agent Makes Annual Report of Money Received for Payments Under AAA

$1,245.25 PER DAY

Jones Says That AAA To Contiue Regardless Of Decision of the Supreme Court

Randall county farmers have received from AAA approximately $985,000 since the government started on its program of assisting the farmers.

This amount does not include the crop loans which have been made to farmers of the county, but does include about $141,000 in cattle purchases which were made during the fall of 1933.

According to the annual report of County Agent W. H. Upchurch, AAA has distributed $386,028.68 to the farmers of Randall county during 1935. This amount is divided as follows:

Wheat	$351,221.20
Corn-Hog	32,407.79
Cotton	2,399.69

Based upon the days the office of Mr. Upchurch was opened for business this figures $1,245.25 per day for each of the 310 days during 1935.

No announcement has been made regarding crop loans for 1936, but a statement is expected from the government by the first of February regarding the policy of loans for 1936. The farmers have been very largely financed in farming operations through crop loans the past three years. In spite of the short crops during this period, many farmers have repaid in whole or in part these loans. Had it not been for the government loans during this period, many farmers would have been unable to plant their crops.

Farmers of the nation are wondering about the decision of the United States Supreme Court which will pass upon AAA during the next two or three weeks. Regardless of the decision, Congressman Marvin Jones, chairman of the House Agricultural Committee, announced Tuesday from Washington that all functions of AAA would be continued.

Bargain Rates On Subscriptions Are Extended to Jan. 15

Bargain days for newspaper subscriptions have been extended to January 15th.

The News received several hundred renewals during the closing days of bargain rates, but many others wished for a short extension of time in order to take advantage of the reduced rates.

Those who have not renewed their subscription to The News or to any of the daily newspapers under the clubbing rates should do so at once. 1936 is political year, and every citizen will wish to keep up with political events in Randall county during the year.

19 Plead Guilty To Charge Made On Cock Fights

25 Employ Attorney To Fight Charges To Be Tried Soon In County Court

Nineteen have plead guilty to the charge filed against them for cock fighting at the Harding Ranch two weeks ago. At that time Sheriff Bob Barnett and deputies arrested 51 men and 8 women, filing charges against them.

All who have not paid off are out under bond to be tried in the county court.

It is stated that 25 of the group have employed an attorney in order to fight the case.

Clarence Beckman Is Candidate For No. 2 Commissioner

Clarence Beckman has authorized The News to announce his candidacy as County Commissioner, Precinct No. 2. This precinct comprises the Umbarger, Hileman and Wildorado communities, being the west section of the county.

Mr. Beckman has been a resident of Randall county for 28 years. He has engaged in farming all of this time, and has been a land owner for the past 20 years.

"I feel that I am qualified to hold this important office," stated Mr. Beckman, Monday. "I have been a student of the county's affairs, and if elected will try to see that the taxpayers' money is carefully spent in order to secure the most for the money."

Mr. Beckman states that he has made no promises in entering this campaign, but if elected will enter the office with a free hand to do the very best for the county, as well as the taxpayers of his precinct.

"I want to meet every voter of the precinct during the campaign, and to discuss with them the affairs of the county," states Mr. Beckman. "If elected it shall be my duty, as well as my pleasure to seek diligently to see that every tax payer in the county gets a square deal, and that the affairs of the county are carried on in a business like manner."

Mr. Beckman has the honor of being the first candidate to place his announcement in the 1936 campaign.

Exemptions Must Be Secured to Vote '36

Two Classes Are Affected By Change Made In Law

Tax paying time is here again.

During January the offices of tax collectors will be busy taking care of the annual business of collecting taxes in order that functions of government may continue.

Since 1936 is election year in Texas, it is expected that about 2200 poll taxes will be paid in Randall county as compared with only 1300 for 1935.

Owing to a change in the poll tax and exemption law by the last session of the legislature considerable confusion exists in the state. Counties with towns of 10,000 population operate under a different provision than counties like Randall which has no large towns.

Men and women 60 years of age and over are not required to secure an exemption in order to vote. But exemptions must be secured by two classes of persons before they will be allowed to vote in the

Candidates Will Save Money By Centering Their Advertising In The News—Many Fake Schemes

This is political year.

Randall county will have a number of candidates, none of whom have any money to wast on schemes which are presented to them during political campaign. Each political year brings forth a lot of schemes which are manufactured for the purpose of separating the candidate from his money.

In past years various types of magazines, calendars, programs, and what nots have been presented to candidates and pressure brought to bear that they contribute to these publications. These are worthless to the candidates, but profitable to the promotors.

Without fear of challenge, The Canyon News offers to the candidates the best and most reliable medium of reaching the voters of the county. The candidate must visit the voters, since he is expected to talk with each and every voter. But The News will reach a larger percentage of voters than any type of publication.

The candidates may rest assured that their messages will be carried to the largest percentage of the voters when printed in The News.

During the campaign, The News will keep the candidates advised as to the important dates which must be observed in filing application for place on ballots, payment of primary fees and other political news.

The News is printing this statement only for the sake of the candidates, who will be sought as victims of many promotors who seek to extract their hard earned money.

Political advertising in The News is strictly cash in advance. All candidates should consider this before asking that their announcements be made in The News.

Relief Office Is Closed; All Work Now Under WPA

No New Cases Since Nov. 1st; Number Men To Be Transferred Here For Work

The relief office in Canyon was closed yesterday, all records being transferred to WPA. Fifteen families who have been on direct relief will receive aid from the state WPA office at San Antonio in the future.

No more cases are being opened at the local office, and men who had not been transferred to WPA by No. 1st will not be certified for work at the present time. However, it is expected that provision will be made for them in the near future.

Mrs. Irene Sloan has been transferred to WPA in charge of commodities.

All records at the local office are being changed to conform with WPA.

Fifty men from Amarillo will start to work today on the campus of W. T. These are transferred here to make sure that all work is completed by the time WPA ends and to assist in caring for 400 in Amarillo who are not assigned to work. A large number of new projects are being submitted for the campus so that every man in Randall county will be given work as long as WPA continues.

HURT IN FALL

LIGHT SNOW IS BENEFIT; BRING UP LATE WHEAT

Moisture For 1935 Is Little More Than Total For the Year of 1934

CROPS ARE BETTER

Wheat Starts 1936 With Better Prospect Than Year Ago—Rainfall Is General

Showers and a light snow added one-fifth of an inch moisture this week. The combined showers of Saturday and Monday amounted to .10 of an inch, and the snow of yesterday added another .10 of an inch.

The total moisture for the year of 1935 was 13.79 inches, as compared with 13.19 inches for 1934. The distribution for 1935 was as follows:

January	.61
February	.43
March	1.28
April	.05
May	2.12
June	1.64
July	.90
August	3.16
September	1.58
October	.47
November	1.25
December	.30
Total	13.79

In spite of the heavy dust storms of the early spring, the May rain made more wheat than was raised in 1934. In spite of the dry July, the August rains developed the ranges and feed crops so that more feed was raised in 1935 than in either 1933 or 1934.

The moisture of yesterday started about 10:00 o'clock and continued falling until the middle of the afternoon. A large part of Northwest Texas received some moisture, with the heaviest fall north and east.

Farmers believe that this moisture will bring up all of the wheat in the county. Some of the late planted wheat had not been able to get through the crust which formed following the rain the first of December. On the average the wheat looks better now than it did at the start of 1935.

Mrs. Wall Died Friday; Funeral Held Saturday

Pall bearers were: Ed McCoy, Walter McCoy, W. F. Smith, Bert Hicks, A. G. Nicholson, Reg Prichard.

Surviving are five sons and three daughters: R. J. Wall, W. A. Wall, C. E. Wall, of Canyon; G. E. Wall of Canon City, Colo.; T. C. Wall of Lehman; Mrs. J. P. Grimes of Amarillo; Mrs. Ruby Pendergrass of Waynoka; Mrs. Ada Lampkin of Hemet, Calif.

PANHANDLE MEMBER PRESS ASSOCIATION

What is the future of Canyon? Every citizen should carefully weigh this question as they see many, many small towns dwindling away, while the big towns are growing larger and larger. A well known traveling man who makes all West Texas discussed this problem the other day. He pointed to several county seat towns which were rapidly passing away. His observation about Canyon should be considered by all citizens: "Canyon is not as good a business center as it was two or three years ago because people are not staying with their home merchants. While the paved highway is a certain type of blessing, it is also a curse to small towns within easy driving distance of big towns. Canyon is one of the very, very few small towns in West Texas which has a chance to survive, because of the location of the College here. Yet the College is not apt to grow much larger if Canyon declines; it is a fifty-fifty proposition, in which every person in Canyon should be vitally interested. A lot of your business men chase away from home for everything they need; I see many of your professional men, and citizens on the streets of Amarillo every day I am there. It is strictly up to the citizens of Canyon as to whether they want to save Canyon, or allow it to become a ghost town." This is something worthy of consideration as 1936 opens. Trade at home during this year; give the home institution a chance; protect your own investment and your future by keeping your money at home.

In recent years cheap goods have flooded the markets. The price was the only consideration. There is said to be a growing demand for quality, but at the same time the great mass of the people want quality at the same low prices. Most of the cheap goods are imported from counties where labor is very, very low. This flood of cheap merchandise has demoralized American factories, as well as having a bad effect upon the buying public.

Governor Allred has about decided not to call the third special session this month. Two sessions without a tax raising bill and no definite information as to the amount of money needed for old age pensions are the contributing causes for the Governor postponing this session. The Governor might decide to do as his predecessors have done—just allow the deficit to continue piling up during 1936 and shove the burden to the 1937 session of the legislature. Existing functions of government will greatly suffer if this policy is followed, as the next legislature will probably be no more willing to shoulder the tax burden than the past ones have been.

The News is not divulging in a lot of 1936 predictions. We have done so in the past, only to see most of them go astray. Without doubt conditions will greatly improve over the nation during the coming year if politics does not figure too strong. After President Roosevelt reads his message to Congress next week, there should be a pertty good clear chart before the people as to what may be expected in this session of Congress. Locally speaking, a real rain or big snow would solve the situation and do more to restore confidence than any thing else. Happy New Year to all.

While inventory is underway in all business firms, few people will take the time to sit down and carefully draw up a balance sheet of their own lives and acts for 1935. "What happened has happened" is the motto of most folks without regard to cause or effect. Many mistakes of 1935 could be avoided during 1936 if all of us were willing to look at our lives as critically as we do the merchandise on the shelves.

Over in England the criminal is promptly arrested, tried and convicted. In America he has a chance of 75% in never being arrested, and another 75% of not being convicted even if arrested. No matter how hard the officers work on criminal cases, they find a large part of the people opposing their work.

Every indication points to the passage of the bonus bill early in the session of congress. If the President could have assurance that pensions for all veterans would not be immediately demanded, there is little doubt of his signature to the bill. Since this is election year, indications point to the passage of the bill over the President's veto, should he decide to repeat his veto.

Regardless of the useless waste of life and property in automobile wrecks during 1935, it is an interesting fact that there were more accidents in homes than upon the highways. Be careful during 1936. Accidents are costly in time, money and human efficiency.

Al Smith will lead the Liberty League attack upon President Roosevelt on January 25. It is hard to have much respect for a quitter who has been so greatly honored by his political party.

If the New Year resolution has survived these two past days it has done very well indeed.

It is hard to do, but nevertheless must be done—writing 1936.

IS LINDBERGH REALLY LEAVING

The story that Col. Charles A. Lindbergh is taking his family to England to escape threats and persecution may prove more speculative than factual, but, at best, it is a reflection upon the United States. It is a fact that Colonel Lindbergh has, through a long period of sorrow, been subjected to too much attention, some of it mendacious, some notoriety-seeking, some venal.

We hope the story will not "stand up" in detail. It carries serious implications against the country. From the time Lindbergh landed in Paris he has been subjected to the most thorough publicity. The kidnaping and death of his little son shocked this country as it had never been shocked before. The ordeal since the baby's disappearance must have been very trying to the Colonel and Mrs. Lindbergh. He has undoubtedly received threats and annoying messages of many sorts and the worst of it is not all of them have been from cranks or deranged persons. That racketeers have preyed upon the family in instances other than the ransom affair is practically certain.

A new turn has come in the case of Bruno Hauptmann, convicted of the murder of the baby. There seems to be a determined effort to save him from the electric chair. Just how valid or how formidable this movement may be we do not know, but there is a possibility it will prevent his execution. The state of New Jersey has in its power clemency or even pardon. It is possible this situation has a disturbing effect upon the family. It is even possible gangsters are using the clemency proceedings as excuse to further harass the Lindberghs. This nation owes it to the Lindberghs and the public to get at the bottom of this agitation.

Viewed from another angle, the story that the Lindberghs will settle in England is not wholly tenable. It is the hope of the American people that Colonel Lindbergh will return to defy his annoyers and that he will continue to move about this country with the assurance that our people are fond of him and wish him a safe deliverance from all his troubles.—Tulsa World.

News in Canyon 25 Years Ago

(Taken from the files of the Randall County News of January 6, 1911)

The city council passed an ordinance providing for all night electric service. L. T. Lester, L. E. Cowling and associates were listed as owners of the power plant.

Miss Minnie Shotwell and S. M. Francis were married.

T. S. Minter arrived to become head of the agriculture department of the normal.

Archey Key, Oscar Gano, and Arch Bates spent the holidays hunting in the canyon.

Dr. F. M. Wilson addressed the mothers and teachers club meeting.

J. C. Hunt left for Austin to represent the 106th district in the legislature.

The kitchen range in the Dr. J. M. Black home was blown up when a fire was started in the stove before it was discovered that the water front was frozen. Mrs. Black was called from the room just before the explosion, or would have been injured.

Advertising in The News is one way to make people know what you have to sell when you have it. There may be other methods, but we know of none that does the work as well, or as cheaply.

There are two ways of supporting the churches of Canyon. The first is to attend them and the second is to give them some of your money.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

HAPPY NEW YEAR!

Although the past year has not yielded an abundance of prosperity, it has taught us that there are values which contributes more or at least as much to our happiness and well-being as financial abundance. The experiences of this past year have made us more charitable toward our brothers; they have given us more appreciation of each other's efforts, and they have made us more co-operative with each other. Indeed some of us are learning that riches is not the greatest thing in the world.

With these lessons embedded in the souls of all of us, we have the foundation for greater achievements as a people than ever bfor. May the lessons that you individually have learned, yield abundant returns in the way of harmonious, happy living during the year 1936.

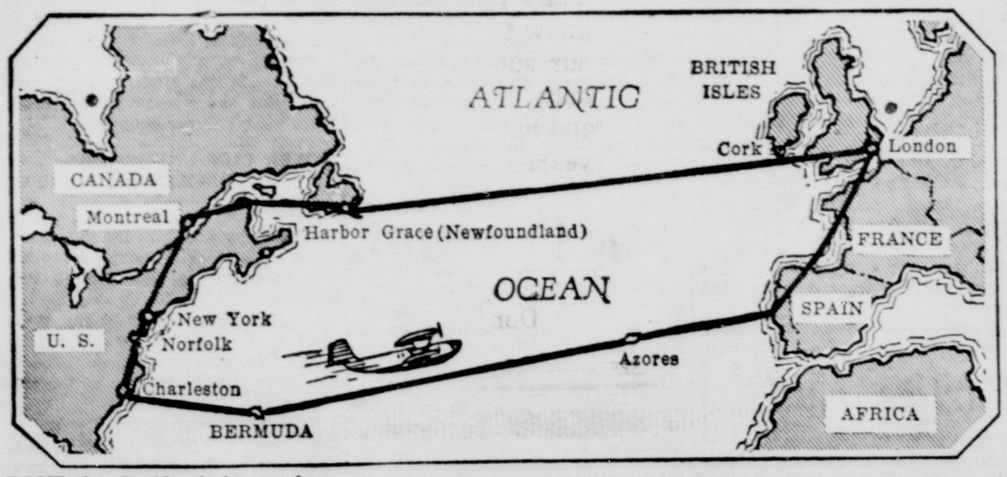
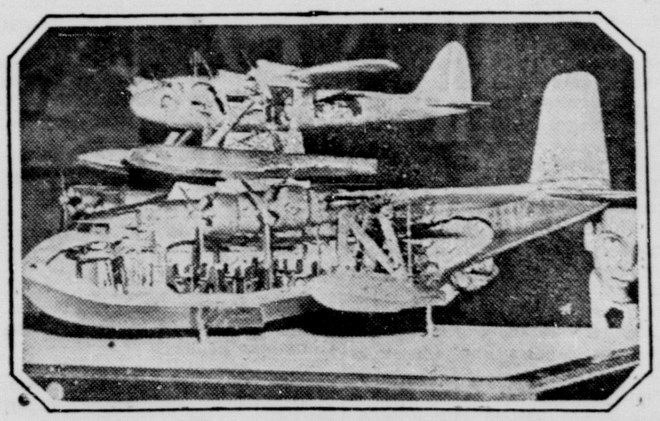
Victorious Over Pacific, Sky Liners Aim at Conquest of Atlantic





Trans-oceanic commercial planes of the future may take off by being catapulted from the back of a larger "mother ship," principle of the Mayo Flying Boat, a model of which is shown above, with side cut away to reveal interior arrangements. The map shows the Great Circle and southern trans-Atlantic routes, to be tested this summer.

NOW that Pacific air lanes echo regularly to the throb of Clipper motors, conquest of the narrower Atlantic is but a matter of months.

In experimental hops, giant planes next summer will test the Great Circle route from New York to England. Over this direct course, the ships will head for Harbor Grace, Newfoundland, via Montreal; then hop straight across, non-stop, to Cork, Ireland. This overseas stretch is just under 2000 miles, 400 less than the Clippers' regularly scheduled hop to Hawaii.

Later in the fall, in experimental flights, planes will span the southern route, flying from New York to England via Charleston, S. C., Bermuda, the Azores, and Portugal.

While 1500 miles longer than the Great Circle course, the southern route promises more temperate weather.

• • •

MUCH progress already has been made. The United States, England, Ireland, and Canada, through representatives, have agreed to co-operate in launching trans-Atlantic air service. Bermuda is developing its airport facilities. Pan-American Airlines has the necessary huge planes and, in the new venture, will have the co-operation of Britain's Imperial Airways.

While, now, there are no British ships that can stand severe transoceanic tests, Great Britain is working on a huge "sleeper" seaplane resembling the Pacific Clippers, and on another type of plane that is a new departure in aircraft.

This is the Mayo "composite plane"—really two of them, each equipped with four engines—a monoplane flying boat, on the back of which rests a much smaller and heavily loaded seaplane.

All eight engines aid in the takeoff. At 5000 feet or so, the smaller plane is catapulted from the back of the "mother" ship, which returns to base, the seaplane flying on across the ocean. In this way, a heavily loaded plane is enabled to take off without danger of crashing.

The fact that British postoffice and aviation officials already are laying plans for bases in Ireland and Newfoundland; that Postmaster-General James A. Farley has indicated he will ask Congress for a huge federal subsidy; and that other nations, such as Germany, France, and Holland, want to participate, are straws which show the wind is blowing toward an early trans-Atlantic service.

TO MAKE, NOT TO BREAK

New Year's resolutions were all that could be heard from the students last Monday morning when they came back to school after enjoying a week of Christmas holidays.

Resolutions have always been a problem to most everyone, because there are so many most of us should make that it would be much too hard to try to carry out all of them. So after all is taken into consideration, we pick out a few resolutions and try to carry them out. Although new years resolutions are made in a day and sometimes broken in less time, at least good intentions expressed in them are worthwhile.

From the look of the eyes of the puipls and faculty it seems that getting to bed early would be a good resolution. The basketball teams need to make a resolution to win all their games. From the grades of some of the students it might be a good idea if they would think of grades when making their resolutions.

In order to reach a definite goal, one must sometimes give up other desirable things. The question then that one must decide is exactly what objective he wishes to attain, and as the new year dawns, set forth to accomplish that end at all costs.

GUESS WHO?

Smiling and blushing wherever he goes,
Brown hair, blue eyes, a senior small;
A friendly little fellow, few are his foes;
With a cute little cackle, personality and all.

Answer to last week's "Guess Who," Sarah Thompson.

Grades Present P. T. A. Program In High School Dec. 19

The P. T. A. Christmas Program was given by the grades, Dec. 19, in the high school auditorium. All the grades participated.

1A sponsored by Mrs. T. W. Collins gave three songs. The first was, "I'd Like to be a Santa Claus," sung by Billy Davis. In the next song, "Santa Claus is Comin' to Town," the class was dressed in night clothes and sitting at the back of the stage while Ellen Sanders led them. Geraldine Small and James Guthrie dramatized "The Manger in Bethlehem," accompanied by the class in Christmas songs.

Then 1B, sponsored by Miss Virginia Jarrett, gave a playlet, "Christmas of the Three Pigs."

Christmas carols were sung from the balcony by grades 5, 6, and 7.

Second Grade Gives Play

The two second grades directed by Mrs. Ola Beeson and Mrs. Tom Brasher presented a two-act playlet, "Santa's Recovery." In the first act Santa Claus broadcasted over the radio that he was sick. The children were very worried, and decided to become Santa Claus' helpers.

A reading, "Something for a Little Boy," was given by Clarence Eugene Thompson, and "Chewing Gum Man" was given by Jack Brian.

Mrs. Isabel Cousins, Miss Gladys McClanahan and Miss Ruth Greenfield sponsored the third and fourth grades in the playlet, "The Magic Tree."

The P. T. A. served candy canes to all the children present.

THOUGHT OF THE WEEK

I will study
And get ready
and
Maybe my chance
Will come.
—Abraham Lincoln.

Miss Lois Goodrich, English teacher in high school and sponsor of the senior class, spent the holidays with friends in Kirkland.

Mrs. T. W. Collins, teacher of the First grade, and Mary Collins, spent the Christmas holidays in Floydada and Plainview.

"Whoopee! The $350 Is Mine!"

3-4-8 called the man on the stage. The crowded audience held its breath in hopes. Three hundred and fifty dollars was at stake. Who couldn't use that much? Then came the name—"Mr. Billy Sternenberg is he in the audience. "Whoopee, here I am," came the not too weak answer from the back.

To most people it was just another bank night, but to Billy Sternenberg, sophomore, in Canyon High School, it was a big moment. Of course Billy's girl friends have certainly been friendly lately, but you can't blame them; he is an awful nice kid.

Billy said it was quite easy for him to keep his new year's resolution, to make more friends.

When asked how he felt he answered, "Oh, just lucky."

Someone said, "I bet you were so weak you couldn't get home."

Billy smiling from ear to ear replied, "Heck no, I ran all the way home, and then mother and dad wouldn't believe it."

The assembly was opened by songs sung by the Glee Club, sponsored by Miss Gwendolyn Black, music teacher.

The play was sponsored by Miss Edith Shields, reading and public speaking teacher, assisted by Miss Irene Angel, speech instructor last year.

The characters were: Sewel Cox, Clarence Eugene Thompson, Jack Brian, Billie Bee Flesher, Mary Lou Burnett, Joe Frank, Raynelle Rigsby, Kettie Johnson, Jo Simmons, and Eloise Nollner.

"The Fun Of It"
By Amelia Earhart

American girls are proud of other American girls who have accomplished great things. If these accomplishments are in fields which are picturesque and dangerous, the girls are more proud than ever.

Amelia Earhart's career is probably the most interesting of all those of young women of America today. A typical American girl herself, born in the midwest, educated hither and yon throughout the United States, college student, flier, author, Amelia Earhart has already carved a unique and picturesque career for herself.

A particular note of interest in this book is: When Amelia was six years of age some neighbor's chickens kept getting in the Earhart's flower beds. One day Amelia made a trap, and her sister sprinkled bread crumbs to the trap to decoy the chickens. A chicken walked into the trap, but Mrs. Earhart made Amelia turn it loose.

Told With Simplicity

Amelia Earhart, who is now Mrs. Amelia Earhart Putnam tells her story with the simplicity and grace which characterize all she undertakes. The charm of her prose and the modesty of her presentation will delight the reader just as her own modesty has won the hearts of all who know her.

Today probably every modern girl wants to fly. In this book Miss Earhart tells how she learned to fly, and of her experiences in the air.

She describes her famous flight across the Atlantic, her work in aviation, making and breaking of women's speed records, first feminine "solo" across the continent, of her being the first to take the autogiro from the Atlantic to the Pacific and back again. This is a rare and sensible book that is worth every minute of your time to read.

Lillian Chambers, sophomore, and Jewell Chambers, '35, spent five days in Hereford during the Christmas holidays.

Canyon High Is To Retain Membership In Southern Ass'n.

Supt. I. B. Carruth received the following letter Monday:

My Dear Superintendent Carruth:

I am very pleased to inform you that the Southern Association of Colleges and Secondary Schools in its annual meeting at Louisville, Kentucky, December 2 and 4, voted without a single reservation to retain your school on the accredited list of the Association for the current year. This is a very distinct honor conferred upon your school, because a very small percentage of the high schools with membership in the Southern Association escaped either a letter advising or warning concerning sub-standards in one or more points.

Yours very truly,
J. W. O'Banion,
Chairman, Texas Committee.

Canyon Public Schools has been a member of this association since 1925.

THANKS

We, the Eagle's Tale staff, wish to express our appreciation for the hearty co-operation this year and in past years of Mr. Clyde Warwick, editor of The Canyon News.

Mr. Warwick was the originator of the school newspaper in the town paper. Since the beginning of The Eagle's Tale, Mr. Warwick has in all ways been behind its work. He allows us to use his printing materials freely, and helps and advises in putting out a better paper.

Sports Shorts

The outlook for a District Championship basketball team is the best since '26, '27, and '28 when the stars were many.

Looking back to the strong teams of Canyon High, we find in '26, '27, and '28 that the Eagles won three consecutive district championships. In '26, the Eagles entered the Interscholastic League finals held in Austin and were defeated by one point for the State Championship of Texas.

Of course these players are gone forever, but Coach C. C. Jones, who incidently was a star forward of '26 for the Eagles, is quickly developing new players that are expected to carry the purple and white far into the championship teams of West Texas.

After a week of Christmas vacation the Eagle and Eaglette Cagers reported for hard workouts Monday in order to get ready to meet their traditional rivals in all sports. With the Eagles' good center, Ray Ford Rusk and the other boys, who can find the basket, the Eagles should mark up two victories this week end.

Boys, here's a tip, ask Mavis Hardin whose face her hand met?

I. Chaseum Bull Vanquished By Girl Toradors

"Beware of I. Chaseum Bull," advises Kate Donnell and Marie O'Donald to all who go near South Creek.

Tuesday morning Kate and Marie went out near South Creek to get some baregrass (known to others as yucca) in order to beautify the gymnasium for the Mother-Daughter banquet that night. While they were peacefully and innocently digging the grass from the ground with a pitchfork, they heard a sound of running feet and, turning they saw Mr. I. Chaseum Bull rapidly approaching them. Marie, acting as the matador, waved the baregrass in Mr. Bull's face, preparing him for the main bout with Kate, the torador, carrying the lance in the form of a pitchfork. Mr. Bull, being a sissie, turned yellow and ran for dear life. Kate was then pronounced Bullfighting Champion of Canyon High School. What power Kate has over bulls, no one knows.

Balfour Plaque Received for Hall

A bright, shiny, gold, and black Balfour plaque arrived last Monday to be added to that of the last six years.

This plaque is good until 1940. It is a custom each year to place some student's name on the plaque for the best all round student. This includes scholarship, loyalty, and achievement.

This custom was originated in 1929 when Mary Lockwood Sternenberg's name was placed on a new Balfour plaque for 1929. Dorothy Faye Rusk was placed on it in 1930. In 1931, Nancy Strain received the honor; in 1932 Clarence Wooten; in 1933 Kathryn Robinson; in 1934, Armor Lee Greenfield, and Mable Schmitz, '35, will be the first person to get her name on the new plaque. She also received a Scholarship, Loyalty, and Achievement Medal Monday, which is a miniature of the large emblem on the original plaque. This is the first individual medal received.

Beckwith, Meyers Are New Students

As the high school students look about this week they notice two new faces among them. One a girl, the other a boy.

The boy, Marion Meyers, was graduated from Canyon Grade School, and is now in the eighth grade. Marion's father is a farmer. His home is in Canyon. The subjects he is taking are: manual training, typing, English I, and business arithmetic.

The girl, Paula Louise Beckwith, was graduated from the Sanborn School in Amarillo. She is a freshman taking English I, typing, and commercial arithmetic. At present Paula is living at 1101 4th Avenue.

Carline Scott, Bill Knighton, Leon Turner and Frankie Lee Gibson have entered in the first grade.

Mrs. Carl Scott Is to Teach Art In Grade School

Mrs. Carl Scott is the new art teacher in the Grade School. She teaches all seven grades from nine until twelve in the morning.

Her coming necessitated many changes in the schedules, but the children were so pleased that they readily made their adjustments. Her specialty is working in crafts, wood carving, and basket weaving in which the children are all interested. She received her degree from W. T. S. T. C. in 1929 where art was her major. She taught art in Dumas one year.

Canyon has never before had a special art teacher in the grade school, and it is believed that this will be a decided asset.

"Officers For a Day" Carry On Regular Routine

"I issued a marriage license to a couple of kids. They were still in college at Tech," said Billy Louise Greenfield, county clerk for a day. We wonder what they thought—having a small girl like her issuing their license. My guess is that Miss Greenfield was more excited than the couple.

Pauline Harris, justice of peace, must have been disappointed because she did not have the opportunity of performing the ceremony. The couple were married in Amarillo.

"I didn't do very much," said Mayor O. D. Breitliing. Mr. Cash took care of most of the problems. It has been told that O. D. is lazy, but it seems he would have been energetic in that new office.

We wonder how it feels to be able to tell Carl Hair to remove the garbage in the alley behind the Palace Cafe? Mary Ella Davis, city manager, could probably tell you.

Donnell Is Judge

"Well, I was supposed to make a talk to a country school, but I didn't have a car," said Overton Donnell, county judge. Maybe it is just as well saved you an embarrassing situation, Overton.

"When I first went to my office, there wasn't anyone in. The door was open so I went in and sat down," drawled Leslie Lisle, the sheriff. How do you like to arrest people, Mr. Sheriff?

"We wonder if constable S. J. Cox was really frightened when he fed the prisoners." He said, "Boy, when I opened the door to the jail, there wasn't anything between me and the prisoners, and when I handed them the food, I surely did shut that door quick."

Wasn't a very lucky break for those students who tried to "play hooky" Friday; Constable Cox really has good eyes. The new Superintendent of Canyon High School, Lecy Mae Furlow passed strict judgment on them too.

All in all it seemed quite an eventful day for the "officers for a day."

La Tertulia was entertained last Tuesday night by Lecy Mae Furlow and Annie Williams at the home of the former. Games were played and the story of the new year was told. Refreshments were served at the close of the hour.

The Happy girls defeated the Eaglettes 33 to 8 at the Vega tournament early in the season.

Company 2876 Will Be Moved or Demobilized in Few Days

Following the orders of last week that Company 2876 would stay at the Palo Duro, rumors come this week that the company will be moved in the near future. Captain Adair stated yesterday that he had not received official orders, but was expecting them in a few days. Orders came about the middle of December that this company was to be demobilized; last week this order was cancelled. If any change is made it probably means that the company will be transferred to some other project.

Supt. L. J. Bryan is expected back from Austin today with definite information regarding future work at the Palo Duro.

Approval was received Monday on the test cabin which was started several weeks ago. Most of the excavation was completed for this cabin at that time. The cabin will be built as a test, and if the cost does not run too high it is planned to build 20 cabins. This cabin will have two rooms with bath. It will be located west of the lodge, under the rim of the canyon.

HERMAN WRIGHT WILL RUN FOR THE LEGISLATURE

Herman Wright of Amarillo was here Monday and states he is a candidate for the House of Representatives from the 123rd district. He is a senior in law in the University of Texas. While he expects to make formal announcement soon he will make no campaign until the close of the university in June.

H. K. Stanfield of Amarillo is the present representative, and will likely be a candidate to succeed Senator Clint Small.

Rev. F. T. Charlton was taken to an Amarillo hospital Tuesday for treatment. He has been suffering from throat trouble.

elections this year: first, those who have moved into the state since January 1, 1935; second, those who have become 21 years of age since January 1, 1935. In this latter class are included all who will become of age during 1936. Protest has been made to the legislature from over the state regarding this provision, but unless a special session is held before the first primary in July, no correction can be made. In past years those who become of age at any time before election day could cast their ballot without an exemption. This year it will be necessary to secure an exemption before Feb. 1st, even though the person does not become of age until election time.

Automobile licenses cannot be paid until after the first of February, but all cars must be equipped with the 1936 plates by midnight of April 1st.

Miss Geneva Lowe Left For School Work in Venezuela

Miss Lowe is a graduate of W. T., and for the past five years has taught first grade in the Sanborn school.

She took a plane from Amarillo to Miami, Fla., and from there went by a Pan-American plane to her destination.

She is the daughter of Mr. and Mrs. R. D. Lowe of this city.

Mr. and Mrs. G. G. Foster and Mr. and Mrs. Paul Foster of Hereford visited in Colorado at the G. D. Foster home last week.

Judge and Mrs. C. T. Word Celebrate Golden Wedding

Judge and Mrs. C. T. Word celebrated their fiftieth wedding anniversary Monday at their home in Amarillo. A large number of friends from Canyon called at their home to extend congratulations to the couple.

The couple was married at Cisco December 30, 1885. Judge Word was then manager of a ranch at Brady. Two years later they moved to Taylor, and in 1890 came to Swisher county. He was elected County Judge of Swisher county in 1891.

The family moved to Canyon in 1901, living here until 1918 when removal was made to Amarillo.

During these years Judge Word has owned several large ranches, and was one of the largest breeders of Herefords in the Panhandle. At one time he owned more than 100,000 acres, well stocked with registered and high grade cattle.

All the children of the family have attended the public schools in Canyon and were students in W. T. They are: W. G. Word of Clarendon, M. R. Word of Canyon; Miss Lola Word, Harry Word, W. D. Word and Mrs. Cutis Wescoat, all of Amarillo.

Children of Town Well Remembered By Santa Claus

Santa Claus did not forget the needy children and families of Canyon this year. He was very busy Christmas eve when he distributed much needed clothing, fruit and candy and lots of toys to a large number of families.

Many reconditioned toys, books, and clothing of all kinds were given out, together with much fruit and candy bought by cash donations of individuals and organizations. Five dozen stuffed dolls and animals made at the relief office sewing room were among the many different kinds of toys given the children.

Mrs. Charles Stratton assisted by Mrs. Levi Cole, who are in charge of the Community Chest Work, which is sponsored by the City Federation, thank all those who in any way helped in this worthy project; but they are still needing shoes and clothing as their supply is completely exhausted. The ladies will be at the Chest room in the First National Bank building Saturday afternoon to receive any supplies that may be brought in.

Faculty members, students and friends are cordially invited.
